Survey on Intellectual Property Data Exchange

Response ID:136 Data

2. Identification page

1. Please enter the ST.3 code of the member state or inter-governmental organization you represent.

IL - Israel

2. Please enter the name of the Office or Organization you represent. For instance, International Bureau of WIPO.
If your Organization name is the same as your ST.3 code name, you may put "n/a".

Israel Patent Office (ILPO)

3. Types of IP data exchanged

5. Does your Office provide or collect IP data?

Yes, only providing (we provide data to other Offices)

6. In what context is IP data exchange performed?

Bilateral agreements
Direct upload/download of bulk data

4. Types of IP data exchanged

7. Select the IP domains for which your Office provide or collect data.

	Provide	Collect	Both, provide and collect	Not applicable

5. Types of IP data exchanged

9. Which type of file formats are used when your Office provides and/or collects IP data?

Document and archive format

XML
PDF
TXT
XLS/XLSX
ZIP

2D images

JPEG
TIFF

Audio, video and multimedia

Not applicable

3D model and 3D images

Not applicable

6. Types of IP data exchanged

10. Please indicate the data format related to WIPO Standards implemented by your Office in providing or collecting IP data

WIPO Standard ST.96: Recommendation for the processing of intellectual property information using XML

Patents
Trademarks
Industrial designs
Geographical indications

WIPO Standard ST.97: Processing of Intellectual Property information using JSON

Not applicable

Other WIPO Standards

WIPO Standard ST.26: Recommended standard for the presentation of nucleotide and amino acid sequence listings using XML
WIPO Standard ST.27: Recommendation for the exchange of patent legal status data
WIPO Standard ST.36: Recommendation for the processing of patent information using XML
WIPO Standard ST.37: Recommendation for an authority file of published patent documents
WIPO Standard ST.61: Recommendation for the exchange of trademark legal status data
WIPO Standard ST.67: Recommendations for the electronic management of the figurative elements of trademarks
WIPO Standard ST.92: Recommendations on the data package format for the electronic exchange of priority documents

7. Reason for collecting IP data

11. Why does your Office collect IP data from other Offices?

For internal use

Not applicable

For public dissemination

Not applicable

For external distribution

Not applicable

8. IP data delivery methods/means

12. Which methods and/or means does your Office currently use to provide IP data?

SFTP/FTP/FTPS
Individual documents download from Office website

9. Challenges

13. What challenges does your Office face in relation to providing IP data to other Offices?

Organizational and technical challenges

Not applicable

Legal and policy challenges

Not applicable

Financial challenges

Not applicable

14. What challenges does your Office face in relation to collecting IP data to other Offices?

Organizational and technical challenges

Not applicable

Legal and policy challenges

Not applicable

Financial challenges

Not applicable

10. Proposed solutions

15. What following proposed solutions could help your Office address the challenges your Office selected above?

Other proposed solutions (please specify): No challenges were selected above

11. Proposed solutions

. What recommendations should be included in the new WIPO standard on the recommendation for the exchange of IP data and its use?

Technical recommendation

Legal and policy recommendations on IP data use

Procedural and operational guidance

12. Legal and contractual framework for data exchange

16. Does your Office or your country have any national and/or regional laws or regulations that govern the transfer by your Office of IP data (including hosting or redistribution) outside of your jurisdiction?

Yes (please specify the relevant law, regulation, policy, national practice, strategy, or rule that the Office is required to comply with, including the title, reference number, and/or URL to the source of information): The Privacy Protection Law, 5741-1981 (including its major reform under Amendment No. 13, 5784-2024), alongside the Privacy Protection Regulations (Transfer of Data to Databases Outside the State Borders), 5761-2001. These statutes establish the legal framework for database governance and the cross-border transfer of personal data within Israel; however, they constitute general data protection legislation rather than frameworks specific to intellectual property data exchange.

17. Does your Office have formal written agreements (such as contracts/MoU/MoC/ToU/License Agreement) for data exchange with other IP Offices?

Yes, either bilateral contract/MoU/MoC/ToU is required

18. If possible, please provide template(s) of bilateral contract/MoU/MoC/ToU/License Agreement that your Office uses

19. Does your Office have formal written agreements for the provision of data to third parties? *(such as: MoU, MoC, ToU, contract, license agreement)*

Yes, required for any third parties

13. Conditions for provision, use and dissemination of IP data

20. How does your Office currently authorize the use and dissemination of exchanged IP data?

Determined by two Offices involved in the data exchange cooperation through consultation
Authorized in other methods or conditions (please specify): Subject to Annex H of the Administrative Instructions under the Patent Cooperation Treaty (PCT).

21. How does your Office implement the reciprocity principle in practicing IP data exchange with other IP offices?

IP data sharing can be one-way

22. What reciprocity policy re-distribution would your Office support?

Exchange with re-distribution rights conditional on compliance with specific use restrictions (please provide details): The ILPO provides IP data to partner IP Offices (including WIPO) and commercial entities strictly for authorized internal operations or defined operational scope. Any subsequent re-distribution or onward transfer of this data to third parties is strictly conditional upon obtaining prior formal written authorization from the ILPO.

23. Would your Office support a recommendation that Offices provide their IP data free of charge or at marginal cost to the general public and any third party?

Uncertain (please specify): The ILPO supports the free-of-charge provision of IP data to partner IP Offices for internal administrative use. However, the provision of data to commercial entities and third parties is not subject to open-access provisions; it remains strictly governed by formal bilateral agreements and respective

commercial licensing frameworks.

14. Conditions for provision, use and dissemination of IP data

If your Office does not support free or marginal cost data provision, what barriers exist to implementing such recommendation?

15. Conditions for provision, use and dissemination of IP data

24. What level of internal use does your Office permit when sharing IP data with partner Offices?

Unrestricted internal use, partner Offices may use the data for any internal purpose

16. Conditions for provision, use and dissemination of IP data

If permissible for certain applications or uses, which of the following internal uses are permitted?

17. Conditions for provision, use and dissemination of IP data

25. Does your Office permit partner Offices to provide IP data shared with them (including in bulk form) to third parties?

Permissible only under certain conditions

18. Conditions for provision, use and dissemination of IP data

26. Under what conditions would the provision of such data to third parties be permissible?

When the scope of third parties and the scope of data have been documented in a data exchange agreement/MoU or approved in writing
When the partner Office provides prior notification before sharing data with third parties (please describe the required content of such notification): The notification must formally identify the third party and outline the intended scope and purpose of data use. Distribution is only permissible if the notification results in prior explicit authorization or written approval from the ILPO.

Please provide reasons why your Office does not permit the provision of such data to third parties

19. Data quality and error correction

27. Does your Office have mechanisms for checking data for assuring the quality of IP data before sharing them?

Yes

28. Which methods do you use on mechanisms for checking data for assuring the quality of IP data?

Manual review processes
User feedback mechanisms
Regular audits

20. Data quality and error correction

29. Would your Office agree to partner Offices using their quality assurance mechanisms to detect errors in your IP data and providing them to your Office, for corrections at the source?

Yes

30. Would your Office permit partner Offices to correct errors in your IP data before they use internally, publish or share it?

Permitted for specific error categories only: Corrections allowed only for pre-agreed error types (e.g., formatting, standardization)

31. Please provide details of permissible corrections

Formatting errors (e.g., date formats, spacing)
Standardization (e.g., country codes, classification codes)
Obvious typographical errors
Character encoding issues

What would be the timeframe to make the corrections?

Is your Office able to make the corrections, or does the applicant need to be part of this process?

How will these corrections be tracked and managed?

21. Data quality and error correction

32. Does your Office apply any quality assurance mechanisms to the datacollected from other Offices?

Not applicable, our Office does not collect IP data

22. Update frequency

33. What update frequency can your Office as providing Office realistically support?

	Real-time	Daily	Weekly	Monthly	Quarterly	Annually	Not applicable
Patents				X			
Trademarks			X				
Industrial designs				X			
Geographical indication			X				

Other (please specify):

34. Please provide any additional information or comments.

The ILPO welcomes future engagement and knowledge-sharing initiatives regarding the conversion of full-text patent publications into the WIPO Standard ST.96 XML format.
